

# MAN HUNTERS WILL KILL ON SIGHT NO ELECTION OF POPE

## SHERIFFS ARE ALL AT SEA OVER CLEWS.

Getting Reports From All Directions  
But the Convicts Manage  
to Elude Poses

SACRAMENTO, August 3.—A special dispatch from Folsom at noon today says the first report of importance to reach the prison today relating to the hunt for the slayers of the militiamen at the Grand Victory mine last Saturday evening, comes from Sheriff Bosquit.

He has just sent a message stating that last night four men supposed to be part of the five engaged in the fight last Saturday night, called at the cabin of a man named Eades, four miles southwest of Fairplay, near the Cousins river at 9 o'clock last night, and robbed his cabin of all the provisions it contained.

After the men had left, Eades notified Sheriff Norman of Amador county and a posse of twelve or fifteen men was organized at once and started for the locality of Fairplay. Bosquit reports he has sent a posse to head the suspects off.

ONE MAY BE KILLED.  
The fact that only four men called at Eades' cabin leads Bosquit to believe that one of the convicts engaged in last Saturday evening's battle at Grand Victory mine, was either killed by the pursuers or so badly wounded that he was shot by his comrades or killed himself. Bosquit states that he has been informed that about an hour after the fight a shot was heard in the direction which the convicts took, and it is supposed to have been the only one which undoubtedly ended the existence of one of the three criminals.

GOT OTHER SHOES.  
Sheriff Reese reports from Sacramento the appearance of two men at Ben All Station, one at least of whom is supposed to have been one of the escaped prisoners.  
Reese's informant said the tracks left by one of the escapes show a letter "P" to have been worked in nails in the soles of his shoes. All the convicts' shoes have the letter "P" thus worked, but General Overseer J. G. McDonough says he does not believe the es-

caping prisoners are now wearing convicts shoes, nearly all of them having effected a change with the free men after leaving the prison.

TELL OF A FIGHT.  
Sheriff Keena telephones the prison authorities not to take too much stock in the report that one of the men engaged in the fight at Dutch Flat last night was a colored man and undoubtedly the negro Seavis. The fight occurred at dark and the man thought to have been Seavis might have been Theron or one of the others, both of whom are of very dark complexion. Keena is of the opinion that the two men with whom the officers had the fight at Dutch Flat, are the two who were seen last week above Georgetown. They could easily have crossed over, coming by way of Iowa Hill, and be now in the vicinity of Dutch Flat.

## DUTCH FLAT STORY SAID TO BE A FAKE.

AUBURN, Cal., August 3.—All reports concerning the escaped convicts being seen at Dutch Flat or anywhere else in this locality and that they have been run to earth are found to be fakes. The report came from Dutch Flat last night that the negro Seavis, and another convict had been seen in the cemetery there and that a posse had organized and exchanged a number of shots with the fleeing convicts and that in the mix-up Young Wedgewood's gun had been hit by a bullet from Seavis' gun and broken. Sheriff Keena was at Lotus at the time and hurried to Auburn. Together with Deputies Coen, Depender and Hoffman, he took the Reno local for Dutch Flat. A telephone message from the sheriff this morning says that the whole affair was a fake. The story originated in the fertile brain of Earl Burlingame, who reported that he saw the convicts in the cemetery. A party of young fellows went down there and fired several shots into the darkness and that was all there was in the story.

to such a point that the last sacraments were administered to him. This news leaked out by those outside hearing through the wicket a procession and the recital of prayers as the communion was being taken to the sick cardinal.  
It is said that on the request of Cardinal Herrera himself, the vicar-general of his archdiocese of Valencia, Spain, who accompanied the cardinal to Rome, was allowed to enter the conclave and visit him.  
The cardinal is affected with heart disease. It is said that artificial respiration is being resorted to.

GEORGE SINSABAUGH DEAD.  
LOS ANGELES, August 3.—George Sinsabaugh, well-known in business and fraternal circles in Southern California died suddenly at his home in Sierra Madre, aged 45 years. Mr. Sinsabaugh at the time of his death was deputy grand commander of the Knights Templar of California.

## LITTLE CHANGE IN BALLOT.

Cardinals not Yet Able  
to Come to An  
Agreement.

Guards Are Doubled So  
As to Keep Outsiders  
Away From Chapel.

ROME, August 3.—Today's first ballot for Pope has been taken and apparently resulted in no election. Smoke was observed issuing from the Sistine Chapel chimney at 11:15 this morning, indicating the burning of the ballots.

NO WORD.  
Though this is the third morning of the cardinals' imprisonment, they have not yet arrived at a decision. In the hope that over night some agreement might have been arranged, the foreign ministers, many other personages and 2000 or 3000 of the general public went to St. Peter's this morning to await developments.

They were doomed to another disappointment, for at 11:15 a. m., like the broken-out pennant of a ship, the smoke announcing that the fifth ballot had been fruitless, rose from the chimney of the Sistine Chapel and was borne away by a light breeze.  
It was a homeward going pennant for the crowd, which immediately left the piazza. Many expressed regret at the failure of the ballot.

There is a popular feeling that this afternoon's ballot may bring the new Pope, but this does not appear to be based on any particular reason.

GUARDS DOUBLED.  
The correspondent of the Associated Press visited the inside of the Vatican this morning and found that all around the precincts of the conclave the guards had been doubled and wherever there is the slightest possibility of communication with the conclave the Swiss Guards, gendarmes and Palatine Guards watched together.

The antagonism existing between those bodies is the best guarantee that no communication would be allowed. Besides the captains of the conclave in their cocked hats and uniforms embroidered with gold lace, assisted by the valets of Prince Chigi, the marshal of the conclave, in gorgeous liveries, are constantly on the alert. The only news from inside was that the cardinals individually celebrated mass. They took breakfast at 9 o'clock, going shortly afterwards to the Sistine Chapel, where they remained until about 11:30 a. m.

The piazza of St. Peter's this morning bore the usual appearance of the three past days. Italian soldiers occupied two colonnades and stood about in groups, vainly trying to keep in the shade, the sun being scorching.

PEASANTS MAKE VISIT.  
A new note to the scene was given by a caravan of peasants from the surrounding provinces, composed of men, women and children, in costume, who have evidently come to Rome for the purpose of blessing.

The women wore bright red suits, white bodices with colored corsets outside, spotless white handkerchiefs on their heads and sandals laced with leather thongs to the knee.  
The men were less gorgeous in velvet knee breeches with gold buttons.  
The group camped in the shadow of the obelisk, eating watermelon and making so brilliant a picture that all on the piazza, especially the foreigners, feasted their eyes on the characteristic scene.

THE IRISH BILL.  
LONDON, August 3.—The Duke of Devonshire moved the second reading of the Irish bill in the House of Lords today. The Duke declared that the government was confident that the expenditure of the \$50,000,000 provided in the bill would be fully compensated by economies in the judicial machinery and the reduction in the police expenses, which the adoption of the measure would render possible.

## POSSES WILL SHOOT ON SIGHT.

Officers Are At a Great  
Disadvantage on  
Hunt.

Belief That the Five  
Prisoners Will Be  
Captured.

SACRAMENTO, August 3.—A special to the Bee from Folsom says: Although it is one week today since twelve of the most desperate criminals at Folsom made a successful break for their liberty, the prison authorities are confident the fugitives will be taken before many more days. It is now a fact that two bands of convicts, of five and three members each, are definitely located, and it is thought they will soon be cornered and captured. All of the attention of the posses is now centered on either one or the other of these two groups, little attention being given to those convicts like Gordon and Robertson, who are believed to have wandered off by themselves. It is thought that these men will eventually wander into some small town and be captured by local officers.  
R. J. Murphy, captain of the guard, when interviewed by a Bee reporter regarding the present situation, said: "I am quite confident that all of the escaped prisoners will be taken before long. They are working off into a country that is fairly well known and one that has been hunted over for stage robbers ever since the days of '48. The sheriffs and their posses of these counties that are now after the convicts are experienced men-hunters and are familiar with the ground."  
The fight Saturday night showed at what a great disadvantage the officers must work. The prisoners, when they

## AN EARLY MORNING SHAKE.

One of the heaviest earthquakes that has visited California in many years, occurred last night about 9:20 o'clock. Many of the buildings of the city rocked and swayed.  
At the Chabot Observatory the earthquake registered 14 seconds by the mean time clock. It was stopped at 10:49:42 p. m. There were two distinct shocks, the general direction of the first and heaviest being from north to south, while the direction of the second was from east to west.  
The shock was two seconds longer than that of June 11, but not as heavy.  
W. W. Parlin, a pioneer of the early fifties, stated that it was the heaviest that he had ever felt and that he had seen all that had occurred since he came to the State in 1852. He was in the Arlington, at the corner of Ninth and Washington streets, and hurried out. He says that will be his last night in a brick building and that he will hunt new lodgings.

RECORD AT THE OBSERVATORY.

AT STOCKTON.  
STOCKTON, August 3.—Stockton experienced a violent earthquake shock last night about 10:50. There was a sharp upward movement and then there were pronounced vibrations from north to south, lasting between five and ten seconds. It was the most violent stock experienced here in many years. No damage reported.

SALINAS SHAKEN.  
SALINAS, Cal., August 3.—Two severe shocks of earthquake visited here last night at 10:40 o'clock. The vibrations, which were from west to east, were very heavy and lasted twenty seconds. No damage has been reported. This was the second earthquake in the past seven days.

REPORT FROM SAN JOSE.  
SAN JOSE, Cal., August 3.—At the time of the earthquake last night, the last car to Alum Rock was seven minutes behind time and thereby escaped what might have been a serious disaster. The car had passed through the tunnel in the canyon when it was compelled to stop by the presence of huge boulders, which the earthquake had sent rolling down the hill. The track was blocked for a long distance.

## SIXTEEN INJURED IN A WRECK.

HARTFORD CITY, Ind., August 3.—Sixteen persons were injured in a head-on collision today between a westbound Panhandle freight and the eastbound passenger. The seriously injured are:  
W. H. MILLER, Los Angeles; head cut and bruised.  
GEORGE ALDORTH, Chicago; leg crushed off below knee.  
M. L. BAUM, Richmond; leg shattered.  
C. H. FREDERICK, Ridgeville, Ind.; leg broken.  
J. A. WATTS, Chicago; leg cut and dislocated.  
C. GORHAMDT, Chicago; both legs broken.  
W. J. WELLS, Chicago; both legs crushed and side injured.  
J. BARRETT, Chicago; both legs broken.  
In addition to the above list of injured, twelve or fifteen others were cut and bruised, but their wounds were not serious.

The accident happened opposite the Cleveland factory. It occurred just as the freight was about to enter the crossing. A broken axle caused six minutes delay. The engine sent the brake-man ahead to flag the passenger. The freight stopped at the crossing, but soon followed the flag, and there was a heavy crash and hurt internally.  
The passenger saw the passenger coming at full speed. He had just time to give a shout and jump for safety. Both engines were reversed when they met, but the momentum was not checked to any degree. The passenger train consisted of six cars. They were two baggage and express cars, a superior ladies compartment car, the Pullman sleeper and a tourist sleeper.  
The foremost sleeping car telescoped the smoking car. The shock threw many people from their seats. The passengers got out of the cars and rushed to aid those in the smoking car, but it was nearly an hour and a half after the accident before the last one was taken from the wreck of the smoker.

MILLS RESUME WORK.  
PITTSBURGH, August 3.—The Port Vue mills of the McKeesport Tin Plate Works resumed work today without any delay.  
RIVER RISES EIGHT INCHES.  
ARLHENE, Mo., August 3.—The Smoky Hill river has risen eight inches in the past few hours and is yet rising.

## OAKLAND GIRLS ON THE VAUDEVILLE STAGE.

THE HYDE SISTERS.  
(Photo Teslo.)

Mrs. Max Steink and her sister, who, as the Hyde Sisters, achieved success as clever vaudeville performers, are well known in dramatic circles, both here and in the East. Max Steink is well known here, having performed on the Orpheum circuit. The Hyde Sisters are living in Oakland and are frequently seen on the professional and amateur stage. Their friends look forward to a bright future for them on the stage.

## REV. BAILEY HAS SERIOUS DEFECT FIERCELY FIGHTS RESIGNED IN COMPLAINT CONSTABLE

HE INTENDS TO SPEND A YEAR TRAVELING IN EUROPE.

The Rev. Alfred Bailey has resigned his pastorate of the Fourth Congregational Church at Thirty-sixth and Grove streets, on account of ill health. Mr. Bailey intends spending a year in Europe before resuming his duties, but does not know whether he will return to Oakland.

Mr. Bailey is a graduate of the Pacific Theological Seminary of Berkeley. He arrived in California some years ago, after having made a tour of the world in the interest of the Salvation Army. He spent some time in India and China, where the climate did much toward weakening his physical health. While circling the globe Mr. Bailey was associated with Commander Booth of the Salvation Army. Constant study and hard work in unhealthy climates finally compelled him to return to America. After arriving here he took a course at the Theological Seminary in Berkeley and was ordained to the ministry from that institution. Shortly afterwards he accepted the pastorate of the Fourth Congregational Church, where he has remained ever since. He will leave shortly for the East, where he will spend several months before departing for Europe.

Morris H. Lane, the Town Marshal of Emeryville, left today to spend two weeks vacation at Harborside Springs. He will join Judge Quinn, who is also spending his vacation at that point.

## ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. That "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier, and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, owing to a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it, and I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic.

Yours truly,

"TERRIBLE" BROWN BEATS PARADONED MURDERER'S HEAD TO A PULP.

Dick Ward, a murderer, pardoned by Governor, as the last moment of his administration, engaged in a fierce fight with Constable "Terrible" Brown of Emeryville at an early hour this morning and he was beaten almost into a pulp before he could be subdued. The officer used his club on Ward until it was feared that his entire head had been beaten in, and it took Dr. M. L. Emerson, at the Receiving Hospital, over an hour to dress his wounds. His scalp was a mass of cuts and it took over 50 stitches to patch and hold it onto his head. He was taken to the County Jail, where he lies this morning in a half-conscious condition, unable to see.

From accounts of the fight, Ward was only beaten while he was resisting the officer and fighting furiously. He was under the influence of liquor and quarrelsome, and fought with the desperation of a madman. He has been working around the Emeryville race track, taking care of some horses and last night, in an intoxicated condition, raised a disturbance in a saloon and when the officer was called, attacked him.

Ward was found guilty of a brutal murder committed at the old Bay District race track ten years ago. He was a jockey then of some ability and got into a fight with a stable boy and attacked him with a pitchfork. He plunged the tines into his antagonist's time and again and the murdered man was taken out of the stable dead. Ward had served about ten years and as there was some evidence that he had been attacked by the man he killed, efforts made in his behalf at about the time Governor Gage's administration was coming to a close effected his release.

## TRIAL OF JETT AND WHITE.

CYNTHIANA, Ky., August 3.—In the Jett and White trial today Bruce Little, a special bailiff of the Kentucky Circuit Court during the first trial of Jett at Jackson, testified that he and several men with soldiers captured Tom White after eighteen miles ride over the mountains at four o'clock in the morning. Witness said he asked Jett where he was when the killing occurred and Jett replied, "None of your business."

At 10:15 a. m., after having presented forty-two witnesses, Commonwealth Attorney Byrd announced that the commonwealth rested the case and Judge Osborne adjourned court until 1:30 p. m. to allow the defendants to consult with their clients. The defense will introduce about twenty witnesses more than they used at Jackson.

Freddy—"What are descendants, papa?"  
Papa—"Those who come after us, my son."  
Freddy—"Well, one of sister's descendants is in the parlor. He come after her to go ridin' in his automobile."

## OAKLAND TRIBUNE

Tribune Publishing Company

William E. Dargie, President

## DISTEMPER IN SACRAMENTO.

With his eye in a fine frenzy rolling the editor of the Sacramento Union takes his pen in hand to rebuke THE TRIBUNE for making some local remarks concerning the superlative sapience of certain "rural journals" of limited circulation published in localities remote from Berkeley. He says:

"Pretty much everything in the way of sound thought, conscience and initiative in California journalism has its source in this same rural press."

Is the gentleman giving himself a certificate of character or volunteering to give one for somebody else?

We have never claimed the city of Sacramento as "a rural community remote from Berkeley," nor the Union as a journal of limited circulation. If the editor in question chooses to place his town and his paper in that category, he should not be denied the privilege. This is a free country, as the hog said when he wallowed in the mire.

But until recently the editor of the Union was engaged in San Francisco journalism of which he says:

"The city papers, as all the world knows, are attached to 'various interests' of a personal, political or material kind, bound hand and foot, denied the rights of free thought and free speech, held to a subservience which discredits not only themselves but the State of California, in which they are published."

It was only a few weeks ago that he came into the control of the Union. When did he become vaccinated with the superabundant brains and character of the haymow and the pigsty? Whoever performed the job must have done the business up to the handle, judging from the pustular outbreak that has followed the introduction of the virus.

The Union's statement that the city papers are all attached to "various interests" and are bound hand and foot and denied free speech and free thought is delicious. Strey Gump could do no better. The old type in the Union office must have sizzled in joyous appreciation of this fine outburst of humor. It equals the famous jibe that the kettle directed at the pot.

Did the Union get a new set of morals when it got a "rural" editor from San Francisco and dropped the hyphen that has so long borne mute testimony to its independence and its freedom from subservience?

As for the Union's Chesterfieldian references to vulgarity, ignorance, spleen, arrogance and suburban burlesqueness, we pass them by as the capricious emissions of an over-cultivated and overstrained intellect. Possibly they are the result of a San Francisco editorial conscience trying to adapt itself to the high ideals of the Sacramento Union before its owner has become fully acquainted with the local cocktail route.

Our Sacramento contemporary assumes that THE TRIBUNE reflected on the body of the interior press and that it resented discussion of the State University's affairs by journals published in other parts of the State.

Neither assumption has any basis in fact. This paper has a high opinion of its interior contemporaries, and has on numerous occasions complimented them on the vigor, intelligence and ability displayed in their columns. The press of Sacramento, Stockton, Fresno, Bakersfield, San Jose, Eureka and other interior cities cannot be matched in other towns of equal size on the globe. And in many smaller towns able and enterprising dailies and weeklies are published.

We specifically referred in the justifying article to which allusion has been made to "a number of rural journals" of limited circulation published in places remote from Berkeley. We ridiculed their absurd pretense of having inside knowledge of the University's affairs with which those close by and in closer touch with current matters at Berkeley have no acquaintance. Not the slightest objection was made to anyone exercising his or her undoubted right to discuss the affairs of the University. So far from being resented, discussion of the affairs of this great State institution is welcomed. It is advisable that there should be a general discussion of State University matters, to the end that the people throughout the State may be fully informed as to its progress and development and the character of its management.

Now, the coterie of obscure journals in distant localities that we alluded to, objected to any discussion of the University's affairs as an intrusion and to criticism of the management as an impertinence. This attitude was based upon an assumption of superior knowledge of what was going on at Berkeley and alleged statements of fact for which no authority was given.

It was palpable that these emanations were inspired by some interested party not far removed from the University itself. They were clearly intended to shut off discussion and to forestall criticisms that might be unpleasant to persons who wished things to be taken for granted.

Controversy is one thing; the circulation of anonymous and unsubstantiated statements of alleged fact having a bearing on a pending controversy

is a totally different thing. It is apparent that intelligent and dispassionate discussion of the State University cannot come of getting up a sham fight between the press of the cities and the rural districts, nor by making comparisons between the papers of the town and the papers of the country. Perhaps the Union desires discussion. If it does, it will hardly get it by putting itself at the head of the rural press, as a self-constituted leader and champion, to repel an assault that was never made and to engage in a war that has no existence save in a mind that the country air has heated and inflated.

Every prominent Republican but Senator Beveridge seems to be dodging the Vice Presidential nomination. The nomination appears to be dodging Senator Beveridge.

"Let me have fat men around me; such as sleep sound at night," said the jovial, corpulent, impetuous Falstaff of Shakespearean memory. The convicts evidently appreciate a Warden of that kidney, one who lards the lean earth as he walks and who is not awakened by the melody of his own snoring.

The appointment of George Samuels to the City Justiceship made vacant by the resignation of Judge Stetson is one of the best that could have been made. In every respect Mr. Samuels is peculiarly qualified for his new position. He is an excellent lawyer, and his record as Deputy District Attorney is one that can be commended without reservation of apology. It has been admirable. Aside from his legal talent and knowledge, Mr. Samuels possesses two indispensable requisites for a judicial position—integrity and moral courage. He will serve his friends to the extent of his ability, but not at the expense of justice or his conviction of right. He is a fair man, an honest, a capable man. No more can be asked or desired.

## OPPOSITION TO CHAMBERLAIN.

Mr. Joseph Chamberlain has recently encountered two very severe shocks in advocating his scheme of a preferential tariff.

The cotton spinners of the Lancashire district have organized and demanded a categorical answer to the question whether he proposes to tax cotton from other countries in order to give a tariff preference to the British colonies and dependencies that produce cotton. Mr. Chamberlain has replied that he does not propose to tax raw materials entering into manufactures.

The second shock comes from the Co-operative Workingmen's Stores. He will not find it easy to placate opposition in this quarter. The Co-operative Workingmen's Stores are an incorporated concern, having its headquarters in Manchester and branches in all the chief manufacturing districts. It is said to include in its membership one-sixth of all the working people in England. It is operating with an invested capital of \$195,000,000, all belonging to laboring men. It owns mills, factories and numerous stores; lends money to its members to buy or build homes, and conducts funerals, restaurants, libraries and places of recreation.

It was founded more than sixty years ago by a few poor laborers to enable workingmen to buy their food and clothes at cost. It has thriven beyond all precedent, and so successful has it been in furthering the objects sought that private business concerns cannot stand before it.

As the primary purpose of this great co-operative concern is to furnish the working people who constitute its members with cheap food, it can be readily seen that Mr. Chamberlain's proposals to tax food stuffs comes as a direct challenge which not only threatens the object of the Co-operative Stores, but the vast capital invested in it as well. Naturally the members of this powerful society are up in arms against Mr. Chamberlain and his proposed food tax. They are organizing and conducting a campaign of education to defeat at the polls any candidate for Parliament that endorses it.

Mr. Chamberlain's disclaimer of any intention of levying preferential duty on raw material has not entirely placated the cotton mill owners, who argue that preferential duties on food stuffs may provoke other countries to place retaliatory duties on manufactured cottons coming from England. Besides, they are afraid that making food dearer will cause the mill hands to demand higher wages. The manufacturers of woollens take the same view of the matter.

In addition the financial and mercantile elements are developing opposition to the scheme. The recent declaration of the Vice President of the Bank of England that it would be dangerous to depart from the policy of free trade is significant of this. Mr. Chamberlain's allies and converts are making a good deal of noise, but the depths of the British nation are moving strongly if more silently against a return to the policy of making food dearer by taxation.

## GRAFTING LABOR LEADERS.

Recently Charles Murphy, formerly treasurer of the Journeymen Stone Cutters' Union, was convicted in New York of embezzling funds belonging to the Union, and sentenced to five years in Sing Sing. His trial revealed an ugly phase of the labor troubles in the metropolis.

Murphy set up as a defense that the money embezzled was the proceeds of blackmail levied on contractors as the price of allowing strikers to work. He claimed that the money was divided up among a number of labor leaders and walking delegates, who squandered it or otherwise appropriated it to their own use.

Colonel Andrew D. Baird, member of a large farm having a number of extensive contracts on hand, testified that he had paid the walking delegate of the Stone Cutters' Union \$10,000 in order that his stone cutters might get permission to return to work. This was part of the \$27,000 embezzled by Murphy.

Judge Newburger said the proposition that the defense set up was irrelevant. He said it did not matter how the money was obtained—by what method or under what pretense—it was held in trust by Murphy for the union. He said Murphy's assertion that he divided the blackmail money with others, whether true or false, did not affect the question of his guilt. He had no more right to give it to others than he had to appropriate it himself. The fact that the money was obtained illegally and dishonestly did not relieve him of his duty to account for it.

This is sound law, which, however, is not a question for particular consideration. Proving in court that contractors are being bled by "grafters" holding places of trust and authority in the labor unions is a matter of deep concern. The facts of this particular case seem beyond dispute.

How many other labor disputes have been hampered in settlement by "grafters" who try to levy blackmail for themselves instead of serving the cause of their unions?

Charles Montgomery, president of the California Prisoners' Aid Society, gives out an interview in which he sharply criticizes the prison officials for allowing convicts too much liberty. A few months ago Mr. Montgomery was leading the pack in the howl about the use of the strait jacket. He was denouncing the prison officials for alleged flench barbarity to helpless convicts, whom he alleged to be half starved, overworked and ill-used. Now he complains that too much liberty was given the convicts, that all discipline was relaxed, and convicts better treated than the guards. Mr. Montgomery's views in January do not correspond with his views in July. The truth is Mr. Montgomery has attempted to meddle too much with the prisons and with the treatment of convicts. He abetted the scheme of a glib, all round rascal to have the Warden of San Quentin arrested for putting convicts in the strait jacket and annoyed the prison authorities with complaints about mail being withheld for good and sufficient reasons. We will not question Mr. Montgomery's motives, but his methods are decidedly mischievous.

President Roosevelt's experience with a profane and abusive bicyclist in front of an Oyster Bay church is a sample of what citizens of Oakland have to undergo everyday in the year from bicyclists who insist upon monopolizing the sidewalks. The neglect of the authorities to protect pedestrians in their most fundamental rights is a remarkable exhibition of impotence or indifference.

## RAILWAY HORRORS VS. WAR.

In a recent editorial on the subject of the alarming increase of accidents on our railroads, we called attention to the fact that the railroad companies seemed to place a very cheap estimate upon life, as evidenced by the fact that no special measures were being taken to check the rapid growth of fatalities among railroad passengers and employees. We have here one a government publication, whose figures present incontrovertible evidence that the charge of negligence is well founded. According to Accident Bulletin No. 6, published by the Interstate Commerce Commission, the number of passengers killed in train accidents during the months of October, November and December, 1902, was 218, and of injured 2738. Accidents of other kinds including those sustained by employees while at work, and passengers getting on and off the cars, etc., brings the total number of casualties up to 13,811. Of these 988 were killed and 11,873 injured, from which we see that at the close of last year our railroads were killing people at the rate of 4758 per year, and disabling them at the rate of 47,492, a rate of 51,244 deaths and injuries in a

## ALTERATION SALE

We have grown during the past twelve months, and we are too closely crowded in our present quarters; so we are going to expand.

The people of Oakland have shown their confidence in our goods, our prices and our methods by an increased business that forces us to reciprocate with increased accommodations.

We have obtained that confidence because we have tried to deserve it. Absolute reliability in every article that goes from the store, truthfulness in every statement regarding our goods—these things have brought us customer after customer until now we cannot serve them promptly enough or with satisfaction to ourselves in our present quarters. Every department in the store needs more space, our offices are cramped, our salesmen and saleswomen have little room in which to do their work properly, our packing and checking rooms are overcrowded, our shipping and delivery sections have expanded beyond their capacity, and we are going to meet these new conditions in our business.

We intend to make it an object to you to come here during the alterations in the old and the building of our new store. There may be some inconveniences caused by the workmen and their noise and bustle, but we will offset inconvenience by prices.

To hold our trade and increase it as we desire to do, during this time of carpenters and laborers, we must make heavy sacrifices. We believe it is better to chop prices even to a losing figure than have any of our friends go elsewhere for their goods.

Then watch our price lists in the daily papers. We can't make bigger quarters without losing somewhere and our loss is your gain.

single twelve months. Now, these figures are surely sufficiently shocking in themselves; but we can best appreciate their meaning if we compare them with the casualties in some of the worst instances of the universally admitted "horrors of war." During the whole of the Boer war, which lasted about three years, the total number of casualties (killed, wounded, died of disease, and invalided at home) in the British army was 27,732. Of whom 6727 were killed in action. The Boer losses, if we exclude the number of prisoners taken, were not so numerous as those of the British; but even if we equal that they were approximately equal, we find that the whole number of casualties of British and Boers, throughout the three years, was only about equal to the total number of railroad casualties in the United States supposing, that is, that the rate shown in the last three months of last year were to prevail for the whole year. Judge from the daily record of accidents during the first three months of 1903, this rate has not only been sustained, but has greatly increased. What are we going to do about it?—Scientific American.

## THE OMINOUS WHITE LINES.

Must One Study His Thumb Nails In Order to Know Himself?

A medical writer in the Frankfurter Zeitung has discovered that the white lines which cross the finger nails, particularly the thumb nails, are signs of disturbances in the organism at the time they were formed. His observations are that 46 per cent of the criminals have these lines, 43 per cent of idiots, and 60 per cent of lunatics. He believes that these white lines denote some degeneration of the upper nervous system, and that they are not purely physical, but connected with physical, moral and intellectual change.

This is probably the first time that medical science has honored the thumb with so much attention, although it long ago found its way in literature. Formations in the thumb were held in high regard by the superstitious.

"By the pricking of my thumbs something wicked this way comes," chanted the First Witch in Macbeth, and Shakespeare's consideration of the thumb as a dramatic quality is again shown in the servants' quarrel in "Romeo and Juliet." "Do you bite your thumb at us, sir?" "To bite the thumb at a neighbor was an act against the honor of either Macbeth or a Capulet, and so came the first clash in the great love tragedy. The theory that the ball of the thumb is marked by different lines in each person is the hobby of the chief character in Mary Wain's "Pudd'nhead Wilson," who collected the thumb prints of all with whom he came in contact and eventually cleared the mystery of the changed babies.

The modern palmist reads character in the thumb and the person whose thumb is supplied and made the best of back toward the wrist is said to be capable of great influence over others. Then there is the broad, flat thumb, that denotes strength, and the tapering thumb that is supposed to give its possessor intellect. Now a German specialist has made a study of the thumb nail. A hasty examination will disclose whether one is normally or abnormally classed. The proportion of normally constituted persons who have white lines on their thumbs is only from 10 to 11 per cent, according to this authority, the largest percentage, as being among those who are periodically dangerous lunatics. With this discovery in view it is perhaps as well to examine the thumb nails of an acquaintance before being too free or friendly. At the same time science, superstition and fiction, have not diagnosed the thumb nearly so well as the boy at school who had it as a subject for his composition. The thumb is a lot of trouble. The baby has to be shipped for putting it in her mouth and hollers, and it is also the place where you hit it when the hammer

misses where you want to put it and makes pa mad." The German specialist certainly agrees with the boy. The thumb is a lot of trouble.—Chicago Inter-Ocean.

## WALKING AN EXERCISE.

We must all walk just as we must all talk prose. It is said that there are persons who make it a rule never to walk when they can ride. But it is a waste of good money to spare shoe leather. The man who keeps his legs in condition (it is equally true of the female) is doing much to keep his nerves and his brain in condition and he will probably be able to measure his degree of vigor by observing the strength of his knees. It is true that walking is not the ideal exercise from the anatomical point of view. It is better than cycling for it allows of that half sitting of the pelvis at the advance of the legs alternately which is wanting in the cyclist's seat, and it gives much better play to the arch of the foot and to the ankle. The chief demerit of pedestrianism is that it gives no exercise to the chest and shoulders and not much for the lungs. The kind of walking which fulfills every end of exercise is that which one takes with a golf club in hand round a links. The swing of the body in walking the club is a variety of muscular exertion which is too seldom practiced and cannot be too much prized. A gripper will sometimes have remarked that certain groups of his muscles must be comparatively unexercised in ordinary from the stiffness which he feels in them after his first day's playing at golf. After his first day's playing following a long interval, and among them are the muscles of the loin and trunk. It may be said to be a sound principle, pending no proof, that the better the condition of the muscular wall the safer the state of the organs contained within them.—London Hospital.

A man's true friends keep quiet when some one is enumerating his virtues. Don't forget there is always a wrong side to a question as well as your side.

# NEWS FROM ALAMEDA

## TO HOLD MEETING TONIGHT

### CITY TRUSTEES AND COMMITTEE WILL DISCUSS FRANCHISE QUESTION.

ALAMEDA, August 3.—The City Trustees will meet tonight with a committee of five citizens selected by themselves for the purpose of negotiating the sale of the franchise of the Southern Pacific Company in exchange for the two local franchises that corporation has asked the city for.

As tonight is the regular meeting time of the municipal governing body, it is planned to transact all of the routine work before 8 o'clock and give over the remainder of the session to obtaining expressions from the committee. In accordance with a method suggested by City Trustee Dr. Henry M. Pond, the committee will be provided with ballots, on which will appear the most important subjects which many of the citizens of Alameda believe should be entered in the terms of the franchise. The committee will be requested to vote on these in the order of their importance and write on the ballots any other suggestions which they think should be given consideration in settling the matter. The franchise with the Southern Pacific Company.

When this is done it is probable that a sub-committee composed of members of the City Trustees and the citizen body will be named to meet with the Southern Pacific officials and ascertain what conditions the corporation will grant in return for the two franchises. This sub-committee will then report back to the City Trustees, and negotiations will be continued in this manner until the matter is adjusted to the mutual satisfaction of the parties concerned.

Those invited to confer with the Trustees tonight are: T. F. Baird, E. J. Blanding, J. E. Baker, James Barker, C. Bartlett, William Baurhite, W. A. Bissell, P. Boehmer, A. V. Clark, Frank Cochran, Harvey Dana, E. Daniels, E. J. Dodge, H. K. Field, Bert Fisher, H. M. Hissett, D. H. Hirschfeld, C. A. Hooper, L. H. Jacob, J. J. Koenigshefer, Joseph Koenig, George L. Lewis, J. L. Ligon, Charles Magnuson, Henry Michaels, R. B. Mitchell, G. A. Moore, G. A. Munro, Charles Noel, W. H. Noe, Frank Oils, George Plummer, C. P. Reynolds, Harry Rosenthal, E. T. Shreve, C. C. Siegfried, C. R. Smith, R. H. Swayne, Philip Teller, C. L. Thiden, C. L. Thiel, J. C. Tobin, George Tysor, F. W. Van Sledright, C. Volberg, F. W. Voigt, J. R. Volberg, C. H. Weyer, J. N. Young, F. **SCHOOLS OPENED THIS MORNING.**  
ALAMEDA, Aug. 3.—The public schools opened this morning with the full corps of teachers present and an increased number of pupils, and the quiet that has prevailed around the office of Superintendent Hughes has been changed to a bustle of activity.

**TWO SEVERE SHOCKS.**  
ALAMEDA, Aug. 3.—Last night about 10:50 o'clock this city was visited by two severe earthquake shocks that followed each other in quick succession and caused a sudden springing from their couches by the frightened residents. Quite a number of small articles were shaken from walls and stands, and numerous pieces of glass and china were broken. No serious damage has been reported.

**BOY BREAKS HIS ARM.**  
ALAMEDA, August 3.—A young son of Alfred Cohn of Versailles avenue was out riding his bicycle last week and got entangled with a coal wagon that was crossing the street. In his endeavor to disengage himself he lost his balance, fell and broke his right arm near the shoulder. His aunt, Mrs. C. O. Dent, was called and took him home. Dr. C. P. Reynolds reduced the fracture and the boy is resting comfortably.

**ASSESSMENT ROLLS OPEN.**  
ALAMEDA, August 3.—The assessment rolls were turned over to City Clerk Gilroy this morning and are now open at his office for the inspection of those interested.

**JULY SALARIES FOR OFFICIALS.**  
ALAMEDA, August 3.—The amount to be disbursed from public funds this week on account of July salaries to public officials is \$4,699.

**ALAMEDA MAN MAKES A GREW.**  
SOME FIND—DECEASED UNKNOWN.

ALAMEDA, August 3.—About 9 o'clock this morning W. D. Dilling of 1108 Santa Clara avenue discovered the body of a man floating in the bay between Alameda Point and the mole. Deputy Coroner Fowler was summoned. The man, who is unknown here, appears to have been in water from two to four days, is about 40 years of age and weighs in the neighborhood of 150 pounds. He has a large head, dark hair and a sandy mustache. He wore a black diagonal suit, a plaid shirt and necktie, light colored underclothes, with a blue stripe running crosswise on the shirt, and heavy brown shoes. There was nothing on his person that would aid in his identification and the body shows no marks of violence.

**YOUNG COUPLE MARRIED.**  
ALAMEDA, August 3.—At 2 o'clock yesterday afternoon at the Methodist Episcopal Church South, the pastor, Rev. W. E. Vaughn, united in marriage Mr. Leland S. Shannon and Miss Jennie Lawrence. Mr. Shannon is a well known resident and collector for the gas works, and Miss Lawrence has been a teacher in the public schools.

**FUNERAL OF A. V. LANCASTER.**  
ALAMEDA, Aug. 3.—Yesterday at 2 p. m. Amelious V. Lancaster was buried with the impressive rites of the Masonic order from the Masonic Temple, under the auspices of Oak Grove Lodge, No. 315. Delegations of the brethren were present from Alameda Chapter No. 70 of the Royal Arch and Oakland Commandery No. 11, Knights Templar, besides a large concourse of friends. The floral tributes were many and beautiful. Music was furnished by a quartet composed of Harry L. Perry, Frank Edwards, Edward A. Thornton, and J. de P. Teller, Jr.

After conclusion of the ritualistic services, an address was delivered by Chaplain Scott, U. S. A., a past grand master of the Illinois jurisdiction.

**UNCLAIMED LETTERS.**  
ALAMEDA, August 3.—Following is a list of unclaimed letters remaining in the Alameda Postoffice for the week ending this date:

Gentlemen: Dr. A. Berger, D. Berry, J. Bornstein, Albert L. Clark, James W. Freeman, W. R. Herbert, A. V. Lukes, James M. Palmer, J. W. Rice, Manuel Rose, Myrtle Spingler (2).

Ladies: Mary E. Barthold, Mrs. Mac Black (3), Mrs. M. Burton, Mrs. R. Bush, Mrs. M. Connolly, Mrs. G. Conrad, Lillie Cowing, May Davidson, Mrs. Jennie M. Goodell, Mrs. Jennie M. Hicks, Mrs. Tillie Eulburt, Amy Florence Hurst, Mrs. Ada Jacobs, Mrs. Jack Kennedy, Mrs. Eliza Maine, Mrs. E. M. McLaurin, Mabel Lorona Nelson, Cassie Scott, Mrs. Elizabeth Smith (3), Mrs. Edw. D. Taylor, Mrs. Chris. Thomsen, Mrs. Thomas Thomsen, Mrs. E. M. Towne.

**HOUSE IS ROBBED WHILE OCCUPANTS SIT ON PORCH.**  
ALAMEDA, Aug. 3.—Last evening Charles H. Horv and wife of 1331 Versailles avenue were sitting outside the house enjoying a visit with the gentleman's parents. A thief entered by the unguarded back way and ransacked the family bedroom, turning upside down the contents of the bureau drawers and making way with some \$15 that had been laid away in one of them in a locked chest. The police have the matter in charge.

**WANTED TO SCOUT.**  
ALAMEDA, August 3.—William Lomax of Company G, N. G. C., where he is familiarly known as "White Horse," is in the military service, which he is postmaster and addressed to properly that he has been requested by the Police authorities to come up and act as a scout in the Placerville district for parties trailing the escaped convicts. His compensation for the service to be \$10 per day. Lomax knows the country up there thoroughly, but he prefers to remain here in quiet than to risk a punctured skin for a \$10 salary.

**AGED RESIDENT DEAD.**  
ALAMEDA, August 3.—Annie Serene Linden, a native of Norway, aged 73 years, died Saturday evening at 7:15 p. m. of Bright's disease. The funeral will take place tomorrow with interment at Mountain View Cemetery.

**IS SERGEANT KAMP'S COUSIN.**  
ALAMEDA, August 3.—A short time ago a son of the late General John A. Logan was married to one of the belles of the Blue Grass State, and letters just received by Sergeant Kamp of police headquarters inform him that the bride, a Miss Pettit, is his own cousin.

**RETURNED FROM CAMPING.**  
ALAMEDA, August 3.—W. B. Hodges and family have returned from a month's camping in the neighborhood of Soud. Mrs. Narcissa Berry dead.

ALAMEDA, August 3.—Yesterday Mrs. Narcissa D. Berry completed her allotted earthly pilgrimage, having reached the age of 84 years. She was a native of Wheeling, West Virginia. The funeral was held this afternoon from 1236 Mount street and the interment was in Mountain View Cemetery.

**CHARGED WITH SHOOTING PIGEONS.**  
ALAMEDA, August 3.—Upon complaint of Charles Steinhof another warrant has been issued for the arrest of John Doe Coyell for maliciously slaughtering the pigeons of the aforesaid Steinhof. This is not the "John Doe" Coyell who was first arrested for the alleged crime, but a brother "street" who was the sequence to the first arrest.

**TENNIS PLAY BEGINS.**  
SANTA MONICA, Cal., August 3.—Play began today on the Casino courts in the nineteenth annual tournament of the Southern California Tennis Association. The entry list is unusually large including many of the crack players of the State. The program today includes the preliminary rounds and junior and open singles.

**NEW YORK.** August 3.—Angered because a boy hit his brother, Charles Hughes, 5 years old, No. 15 West Ninety-eighth street, drew a knife yesterday and stabbed Max Lehner, 15 years old, No. 61 West Ninety-eighth street, according to police. The quarrel started over a bag of peanuts. The Hughes boy was too young to place under arrest, but his father promised not to spare the rod.

## SUPERVISORS IN SESSION

ROUTINE MATTERS HANDLED AT THE MEETING TODAY.

At a meeting of the Board of Supervisors this morning all the members were present.

**SENTENCE REDUCED.**  
Annie Hogan and George Taylor, prisoners in the County Jail, started a reduction of sentence for good conduct.

**FEES COLLECTED.**  
Reports of fees collected by courts were read as follows: Police Judge of Oakland, for July, \$372; Justice Taylor, Murray Township, July, \$11; Judge Egan, \$37.50.

**CORONER'S REPORT.**  
Coroner Mehrmann reported that he had held nineteen autopsies during July.

**AID FOR INDIGENTS.**  
Supervisor Talcott reported that he had expended \$215 during July in aiding 151 indigents.

**INSANE WARD.**  
Warden Page of the insane ward reported that he had cared for twelve cases of insanity during July.

**ROVE'S REPORT.**  
Supervisor Rowe reported that he had cared for 291 paupers during July at an expense of \$44.50.

**ROAD REPAIRS.**  
Reports of road repairs were received from road foremen as follows: Santos, of Certsville; Meyer, of Detroit; Miller, of Ocean View; Bommer, of Niles; Jensen, of Palomares; Zimmerman, of Altamont; Day, of Vallejo; George, of Alameda; J. H. Whitfield, of Mission, filed.

**REGULATING AUTOS.**  
A petition was received from E. S. Allen, Anton Nissen, T. F. Brady and other residents of Murray Township asking that the board act as a factor to prevent or regulate the use of automobile cars on county roads. The petitioners claimed that the use of such vehicles is dangerous to the lives of the citizens and making it almost impossible to enjoy the free use of the public highways without danger to their lives and property.

The matter was referred to the committee of the whole.

**SMALL ATTENDANCE.**  
The County Superintendent of Schools reported that he had visited the Harris School district for the reason that it had a daily attendance of only three scholars during the school year. Filed.

**INCORPORATION.**  
Robert Tibbault, the incorporator in the matter of the proposed incorporation of Fruitvale, reported that he had discovered 2629 people residing within the limits of the proposed incorporation. Filed.

Manuel Joseph asked to have a consular appointment to select property in the vicinity of his home in Castro Valley. Adjudged.

**LARGE SHOWING IN LICENSES.**  
The report of City Treasurer Pelton Taylor shows a material increase in license receipts for the four months of April, May, June and July of this year over the corresponding period of last year.

The total for April of this year was \$1,530, against \$1,530 for the same month last year. May's receipts were \$12,674, against \$11,720.75. For June the receipts were \$6,954.25, against \$7,040.80 and last month the receipts were \$11,166.75, against \$10,267.75 for July, 1902. The total for the four months is \$33,125.00, and for the same months in 1902 were \$33,580.65. The increase in receipts is \$5,631.75.

**MANY THOUSANDS OUT OF WORK.**  
PITTSBURGH, Pa., August 3.—As a result of the Builders' League lockout eighteen thousand men were out of employment at noon today and the officers of the league say that by evening the number will be increased to 24,000, or the total number of men affiliated with the Building Trades Council. Work has been stopped nearly at all the buildings in course of erection in the city. Trouble is also reported if the contractors bring in non-union men.

**HAD A GOOD REASON.**  
When Tolstol was preparing to write "Resurrection" he frequented the criminal courts of Moscow and St. Petersburg. He tells in a letter to an American friend how a big man appeared one day before a Moscow Judge. The man had married seven wives in three years. This he himself admitted. "Why on earth," the Judge asked him, "did you want to marry so many?"

"In order, sir," he replied, "to find a good one, if possible."—Detroit News Tribune.

**WAITED THIRTY YEARS.**  
For the Proper Food.

A man who was a semi-invalid for thirty years got well in about a month when he found the right food. He says: "When I was nineteen years of age I had a severe attack of Typhoid fever and after almost starving to death I was left in a debile condition."

"My nervous system was shattered, that I had to walk with a cane for six months and after I got on my feet and my stomach was entirely distended, that time I had no rest or health although I had tried doctor after doctor until six months ago I saw an article about Grape-Nuts that impressed me so I thought I would try it."

"So I gave Grape-Nuts a trial, more as something to eat than with any idea it would help me. My improvement commenced immediately and has kept right up until now I have used Grape-Nuts and I feel like another person. I am in better health than I have been since boyhood and am strong and contented. Grape-Nuts food helped me after everything else failed and I am now a powerful man. I have power of proper food. ## GENERAL STRIKE POLICE AID FOR COMPANY BEGUN

SPAIN IS IN THE MIDST OF LABOR UPHEAVAL—CONFLICT FEARED.

MADRID, August 3.—The threatened general strike commenced today in several centers, including Barcelona, Merida, Cadix, Ronda and Alcala. The general unrest is generally attributable to the harvest but the immediate motive for the strike is to reinforce the sympathy for numbers of workmen who have been thrown into prison for offenses during the strike.

The Government has taken stringent measures to cope with the disturbances. The military forces and the civil guards have been reinforced wherever necessary. The instigators of the strike are threatening with severe penalties.

The residence of the mayor and a number of private houses at Cadix have been attacked by strikers, who exchanged shots with the gendarmes.

**MANY ARRESTS FOLLOW RIOT.**  
BUFFALO, August 3.—A riot broke out today between the employees of the Niagara elevator and Italians who are employed at the plant of the Buffalo Union Furnace Company. It is said it was provoked by an employee of the Niagara elevator who shouted derisive epithets at the Italians. No one was hurt, though scores of shots were exchanged. Forty-five Italians were arrested.

**BEN PERKINS AS A FARMER.**  
The Hon. Ben Perkins, of Elkton, Ky., known as one of the biggest lawyers in the "Jack and Joady Ground," comes to the front as one of the best farmers in the State. Mr. Perkins has just finished threshing forty acres of his wheat crop, which measured out 1200 bushels of choice wheat—that is thirty bushels per acre. It is thought that his larger fields will even surpass this yield. Why is it that all farmers can't do this kind of farming?

Mr. Perkins is a man of practical business sense, and makes a success of anything he puts his hands to. Mr. Perkins' farm was no better than thousands of acres around Elkton and not half so good as many farms when he took farming in hand, but by intelligent, practical management of the land, complying with the demands of nature, he is able to produce thirty bushels of wheat per acre, while many others around him with just a good foundation for rich soil, produce about fifteen bushels.

## NEW ORGAN IS DEDICATED FIRMS REGISTER SHE IS A SUCCESS AS A SINGER. TRAMPS THREATEN A REIGN OF TERROR.

### Elaborate Service at Unitarian Church—Sermons Preached in Berkeley Churches.

BERKELEY, August 3.—The new pipe organ of the First Unitarian Church was dedicated yesterday morning at an elaborate musical service. The Rev. F. L. Hosmer, pastor of the church, preached a short sermon. The organ was presided over by Arthur Scott Brooks, organist of the Stanford Memorial Church. A special feature of the service was the singing of Torrance's "Show Me Thy Ways, O Lord" by Mrs. James M. Pierce. The organ was made by the same firm as was the Stanford Memorial organ.

At the First Presbyterian Church, Rev. Dr. J. K. McLean preached the morning service. In the evening, the Rev. W. H. Patchell of Pueblo, Colo., preached upon the subject, "The Making of a Man."

Rev. C. K. Jenness occupied the pulpit of Trinity Methodist Church. His morning sermon was upon the subject, "Make Wells in the Wilderness." In the evening, he spoke upon "When Joseph, the Cattle Herder, Came to Power at the Court of the Pharaoh King."

Rev. Ben F. Sargent occupied the pulpit of the North Congregational Church for the first time since his vacation.

The Rev. William T. Patchell spoke in the morning at the First Congregational Church. His subject was "The Voice Out of Eternity." Rev. Patchell is pastor of a church in Pueblo, Colo.

Rev. W. F. Cowden of Washington, preached at the Christian Church.

Roy Service, a graduate of the University and now general secretary of the Y. M. C. A. in Purdue University, Indiana, gave an address on association work at the First Baptist Church yesterday morning.

St. Matthew's Episcopal Church, at the corner of Grove and Russell streets, is now holding evening services. The Rev. A. Wallace Russell is in charge. Special music is rendered by a vested choir.

**GIVES PLEASANT PARTY TO HER FRIENDS.**

BERKELEY, August 3.—Miss Ethel Dray of 2540 Grove street entertained a number of friends recently at a party. Cards, games and dancing

formed the evening's program. Those present were Miss Eva Frame, Miss Adele Wilcox, Miss Edith Coxhead, Miss Hazel Cole, Miss Fannie Bowers, Miss Mary Fongie, Miss Ida Turner, Miss Hazel Engbretsen, Miss Sylvia Brannard, Miss Grace Shaw, Messrs. Herman Miller, John Tupper, Wright Lussel, George Brannard, B. McIntosh, Will Turner, Ray Pond and C. Ruthaker.

Plans for the celebration of the centennial of the state university will be completed in Berkeley for the reception which will be tendered to the veterans of the G. A. R. when they visit this city on August 21st. The following committee has been appointed to take charge of the affairs: G. A. Wanger, C. H. Chick, W. H. Waster, M. P. W. Albee, Francis Ferrier, F. L. Naylor, W. E. Knowles, Clyde Abbott, R. C. Staats, Thomas Dowd, Christian Hoff, Robert Greig, Fred E. Conner and M. L. Roder. These men will work in conjunction with the following committee from the local post of the G. A. R.: John H. Wilde, J. R. Ayres, N. L. Fresno, Gilbert Shepherd, R. Rockwood Flint and W. H. Wiseman.

The veterans will spend the morning in Oakland. After luncheon has been served, they will be brought to Berkeley in special cars and shown the University and other points of interest. Mr. J. E. Wood left today to spend a few days at Palo Alto.

**WILL GIVE MUSICAL.**

The best musical which was given in Berkeley last night, proved such a great success that the ladies are planning another for about the first week in September. The same talent will be present and the proceeds will be used as part payment on the church carpet fund.

Those who enjoyed the first musical will be pleased to hear of the plans.

**RUNAWAY'S NOT FOUND.**

Nothing has been learned further by Mrs. Hoffman of Fifty-third street of her two boys, George and Bertie, who ran away several days ago in company with Virgil Porter. The San Francisco police have been on the lookout for the boys on several days, but so far the boys have eluded the sleuths.

**PERSONALS.**

Mr. and Mrs. J. T. Armstrong and family returned Saturday from a two weeks' trip to Alaska.

Mr. J. E. Wood left today to spend a few days at Palo Alto.

Mr. Kibler left Friday evening for Oakland to be at the bedside of her mother, James Park, who is seriously ill.

George Spitzley, who has been confined to his home by illness for several days, is now able to be out and about town.

**FOUNDMASTER IN TROUBLE.**

On a bill of lading issued by Justice Prowse, a bill of lading was put up for a \$500 bond recovered by Justice Prowse, valued at \$100, from John A. Costa, Mandalay, poundmaster of Costa, valued at \$750. The animal had been captured by the poundmaster while standing along the river, and Costa intended to sue for the loss of his \$750 by bringing suit against Mandalay.

**DANISH PICNIC.**

The Danish Ladies of Livermore and Hayward gave a largely attended picnic at Farnbrook park, Niles canyon. Special trains carried the people to and from the picnic grounds.

**MISS MAY ENTERTAINS.**

A pretty choice dinner was given at the home of Miss A. May last week. The rooms and table were prettily decorated, and the refreshments delicious. The affair was in honor of Mrs. Nellie Biddle, wife of San Ramon. The other guests were Miss Annie Gray, Miss Strobel, Miss Egger, Miss Hunter, Miss Horn, and Mrs. Henry Henschmidt.

**TO MEET MRS. ARENDT.**

Mrs. J. Arendt of Pleasanton was entertained Monday night at the home of Mrs. Strobel. A number of her Hayward friends gathered to meet her. A delightful evening was spent. After the refreshments were served, the prize winners, dainty refreshments were served. Present were Messdames Arendt, Gannon and Jenkins of San Leandro; Messdames Watsonville, Henschmidt, Rivers, V. and C. Strobel; Misses Veldock, May G. Straub of San Francisco; Lily Walpert and Rose Strobel.

**FAREWELL SURPRISE PARTY.**

A most enjoyable surprise party was given in honor of Mr. A. W. Roder, who takes his departure soon for Oroville, at the home of Mr. and Mrs. J. Rupprecht. The evening was most enjoyable. It was spent in games and music, and the prizes had a delightful time. Refreshments were also served. Those present were: Mrs. Anna Gray, Miss Anna Rupprecht, Miss Mamie Ramage, Miss Grace Rader, Mrs. M. A. Scott, Miss A. Alexander,

### ONE HUNDRED AND FIFTY FERTILIZERS LISTED WITH THE UNIVERSITY.

BERKELEY, August 3.—In accordance with the law passed by the last State Legislature, about fifteen different firms, representing one hundred and fifty different fertilizing products, have registered with the Agricultural Department of the State University. A laboratory is being fitted up in the Agricultural Building, and the different fertilizers will be there tested. The law requires that only those firms selling their product at a minimum price of \$8 per ton need register.

The greater part of the fertilizers, which have thus far been listed upon the list, are intended for fruit culture, and are combinations of the elements of nitrogen and hydrogen.

### MANY ANSWERS ARE RECEIVED.

PROFESSOR WICKSON TO WRITE UPON FRUIT GROWING AND IRRIGATION.

BERKELEY, August 3.—Answers are rapidly coming in to the series of questions propounded by Professor Wickson to the canners and fruit growers of the coast. The question took up the advisability of irrigation in fruit growing, the best methods of irrigation and its results. Already about seventy-five answers have been received, and Professor Wickson expects that they will be all in by the close of the next week. He will then embody the results in a bulletin.

The work has been undertaken at the request of the government authorities. Professor Wickson is an acknowledged authority upon the subject of irrigation, and has already contributed largely to the literature upon the subject. The bulletin will comprise more a study of the effects of irrigation upon fruit culture than have to do with the method or practice of irrigation.

The question took up the advisability of irrigation in fruit growing, the best methods of irrigation and its results. Already about seventy-five answers have been received, and Professor Wickson expects that they will be all in by the close of the next week. He will then embody the results in a bulletin.

The work has been undertaken at the request of the government authorities. Professor Wickson is an acknowledged authority upon the subject of irrigation, and has already contributed largely to the literature upon the subject. The bulletin will comprise more a study of the effects of irrigation upon fruit culture than have to do with the method or practice of irrigation.

MISS DELLA FISCHER.  
(Photo Shaw & Shaw.)

Miss Della Fischer of Alameda, who is well-known in musical and literary circles about the bay, is one of the Island City's popular girls. Miss Fischer has won much praise for her work on the stage, having taken part in many amateur productions in this city. Recently she was marked success before the San Francisco Camera Club.

### SLIP AWAY TO BE MARRIED.

BERKELEY, August 3.—A small sensation was caused today in Berkeley by the elopement of a young couple. The bride and groom were Miss Della Fischer and a young man from the city. They were seen leaving the city in a small car, and were believed to be on their way to a wedding in the city.

### West Berkeley Citizens, Remindful of a Year Ago, Demanding Increased Police Protection.

BERKELEY, August 3.—So serious has the tramp problem become in West Berkeley that the citizens of that section are demanding increased police protection. Singly and in crowds of three and four, tramps have been pouring into West Berkeley, not only from Oakland and San Francisco, but from the country districts as well. San Pablo avenue is one of the leading thoroughfares connecting the country districts and the city and it is along this road that the tramp element comes. Fearing that a second annual of crime may be inaugurated, similar to that of a year ago, when a hold-up was a nightly occurrence, the citizens of the West End have determined to anticipate the trouble and to see that their section of the city is adequately policed.

The business men of the section are taking the lead in the matter. A large number of "hobo" camps have been established in the section and these the business men say must go. A mass meeting will probably be held in the near future and definite plans laid then for abating the nuisance.

A number of minor burglaries and robberies have occurred around Berkeley within the past two weeks and these are declared to be the work of the tramp element. Some are not slow to say that they believe that Captain Thomas Howard was waylaid and killed by the tramps who nightly infest the Brennan barn.

ABOLISH STRIPES.

NEW YORK, August 3.—Three hundred of New Jersey's State convicts at Trenton have donated their new uniforms for the first time, the stripes having been abolished for suits of light gray. The lockstep and close cropping of the convicts had been done away with some months ago in the New Jersey prison.

# CROWN GRAY IN SERVICE.

ENGINEER FRICK IS THE FIRST TO BE RETIRED ON PENSION.

E. Frick, the engineer with the longest continuous service of any man in the employ of the Southern Pacific Company, gave up his strenuous life Friday and on the 1st inst. his name headed the pension roll of the company's faithful servants. He entered the service November 2, 1861.

Mr. Frick was born in England on the 16th of September, 1815, of French parents who had been compelled to cross the channel because of political upheaval in La Belle France, but shortly after the birth of the subject of this article, they returned to their native country and the father was appointed its consul to the Sandwich Islands. He then came to the United States and in 1835 he came to San Francisco where he remained in the Islands about four years, and then returned to San Francisco, where he began his railroad career. Frick remained in the Islands about four years, and then returned to San Francisco, where he began his railroad career. Frick remained in the Islands about four years, and then returned to San Francisco, where he began his railroad career.

In 1860 the Central Pacific came down the valley and absorbed the American River line and the local line that was being operated on Seventh street in this city, and November 2, 1869—fifty years to a day after beginning his career in the railroad industry—Frick took out the second engine run on the Seventh street local. James Batchelder started with this road and ran the engine and one coach made up the entire train. For thirty-three continuous years Mr. Frick handled trains back and forth through the city and never missed the regular round trip of the pay car or cost the company a twenty-dollar piece for his negligence or carelessness. When the engine and coach made up the entire train, Frick was not a house in sight from the mole until after Park street was passed, and when it came to the Seventh street crossing, Frick and his engine made up the entire train.

So long a career in such an occupation could not be entirely free from accidents, and Mr. Frick's only such mishap, that he has been the cause of the death of twenty-four unfortunate, two of whom are known to have brought about the destruction of the engine and the car and several others have been injured as a result of their own carelessness or recklessness.

In 1889, a month after his transfer to Oakland, Mr. Frick married Miss Frances Tappan, sister of Judge Tappan of Alameda, and ever since that time he has been a resident of this city. Here their two sons were born. One son is an engineer in the Southern Pacific Company's employ and the other is a resident of the city of Meridian, where he has just received his engineer's promotion.

Besides having been a successful engineer, Frick is an artist of no mean ability and the walls of his pretty little cottage on Ninth avenue are decorated with many specimens of his taste and skill. He is a man of many talents, and he has been a resident of this city for many years.

THE TRIBUNE has his gratitude to the Southern Pacific Company for the consideration shown him in this transfer to Oakland, and he is sure that he will be able to do his duty as well as he can. He is a man of many talents, and he has been a resident of this city for many years.

## MORE EXPERIMENTS WITH NOVO STEEL.

Robert Abernethy of big square No. 12, who has charge of the drop hammer and section hand equipment, has started a series of experiments in pointing pliers and section bars with the new steel.

Abernethy, who by the way, was for a long time foreman of the North British Railway shops at Edinburgh, Scotland, feels quite sure that this high-pitched steel which has proven such a success for all kinds of machine tools will be equally good for the no less important class of hand tools. He is a man of many talents, and he has been a resident of this city for many years.

The new month was disastrous to eighteen men in the car department and four in the boiler shop, as they were compelled to take a long vacation. He is a man of many talents, and he has been a resident of this city for many years.

Maoh to his regret, Jack Innes was compelled to abstain from labor Saturday because of an injured foot. He is a man of many talents, and he has been a resident of this city for many years.

George Adams and party are keeping their shopmates posted as to their movements. He is a man of many talents, and he has been a resident of this city for many years.

Chick Cooper, marine boiler maker and a party of friends are going to sail the upper bay and Sacramento river for a while. He is a man of many talents, and he has been a resident of this city for many years.

Johnny Coyne has just been promoted to one of the big round fire and is the strength of it bought a whole outfit to make a leather apron. He is a man of many talents, and he has been a resident of this city for many years.

Foreman Rollin of the round house is expected to call from Denver this afternoon. He is a man of many talents, and he has been a resident of this city for many years.

## FORGOT NAME OF HIS BRIDE.

Antone Sanchez, down from Liberman, way, applied for a marriage license at the County Clerk's office and then the name of his intended left him and up to the time of writing he has been unable to recall it. The longer he waits the harder it seems to be to remember and the chances are that he will return home without the coveted parchment. The interest of the whole office was aroused and everyone suggested a name but it was to no use. Deputy Clerk George George Pierce said that he had seen all kinds of sage right but that this beat anything he had "run up against."

The marriage, however, was planned to take place tomorrow and it left him no time to go and return so he sat down and continued to think. An hour went by and he said that he thought of every name he knew but the right one would not come back to him. Then he went out to see some countrymen of his hoping that he might get a suggestion from them and as yet he has not returned.

**MARRIAGE LICENSES.**  
The following marriage licenses were issued by the County Clerk today:  
Olive Blanchard, San Jose, 21  
Amy L. Gregory, Centerville, 18  
Maxwell G. Robinson, San Francisco, 21  
Clara E. Cowling, San Francisco, 21  
Antone Estilva, San Francisco, 21  
Mamie Donnelly, San Francisco, 22

**NEW HOUSES IN BERKELEY.**  
Contracts for six new houses to be erected at Carlton and Telegraph avenues in Berkeley aggregating \$12,575 were filed by J. A. Matthews with the County Recorder today.

# WANTS FAIR TAXATION OF CHINESE CURIO TRANSIT COMPANY. IN BOSTON.

R. Wiand, President of Carpenters Union Says Corporation is Assessed Unreasonably Low.

The following document was filed with the Board of Supervisors Saturday:  
"R. Wiand, being duly sworn, deposes and says that he is a citizen and a taxpayer of the County of Alameda, state of California, and president of Carpenters' Union, No. 36, an organization formed to protect the rights and interests of the laboring men of the carpenters craft. Affiant is informed and avers that the small property owners of Alameda county, most of whom workmen, are discriminated against in making assessments, and are compelled to pay an unjust and inequitable proportion of taxes through the undervaluation of the property of corporations, particularly the property of the Oakland Transit Consolidated Company.

"Affiant is credibly informed that the said Oakland Transit Consolidated Company is the wealthiest and most prosperous corporation in the county of Alameda; that it possesses a monopoly of all the street railway franchises in the cities of Oakland, Alameda, Berkeley and throughout Alameda county; that it owns and operates upward of 135 miles of electric railway in said county, and is also the owner of a large quantity of rolling stock and an enormous amount of other valuable real and personal property. Affiant is credibly informed and avers that the real and personal property of the said corporation, including franchises, subject to taxation in Alameda county is worth in actual cash not less than \$10,000,000, but that it is assessed on the roll of 1903-4 for the gross total of \$2,500,000, or less than 25 per cent of its actual cash value.

"Affiant avers that property approximating \$8,000,000 belonging to said corporation has been made exempt from taxation by this under-assessment, which he further alleges places an unjust and unequal burden on the mass of property owners.

"Affiant is credibly informed and avers that the homesteads of small property owners, mainly working men, of the class to which he belongs, are assessed on the roll for 1903-4 at from 50 to 100 per cent of their actual cash value, as against an assessment of less than 25 per cent on the property of the said Transit Consolidated Company. "Wherefore, affiant prays that in law and equity the assessment of the said Oakland Transit Company be raised till it conforms to the assessments levied on the homesteads and household effects of people who do not enjoy monopolies, but have to work for a living.

"Affiant further alleges that the Oakland Transit Consolidated Company has outstanding mortgage bonds amounting to \$4,200,000 on which it is paying interest, and that said bonds are selling above par to the Commercial Exchange of San Francisco; that it has in addition 69,000 shares of stock valued at from \$50 to \$70 per share; that the revenue it derives from the operation of its roads and the exercise of its monopoly franchises, over and above operating expenses and interest on outstanding bonds, a net annual profit of nearly 8 per cent on \$4,000,000; and that said revenue is steadily and continually increasing.

"Affiant is credibly informed and alleges the cash value of the bonds of the Oakland Transit Consolidated Company, as shown by the current sales on the San Francisco Stock and Exchange Board, to be as follows, to-wit:

"\$1,400,000 of bonds selling at \$12 1/2; value, \$1,701,000.  
"\$1,600,000 of bonds selling at \$1 1/2; value, \$1,530,000.  
"\$1,200,000 of bonds selling at \$99 1/2; value, \$1,195,600.  
"Total cash value of outstanding bonds, \$4,576,500.  
"\$600,000 of bonds selling at \$1 1/2; value, \$600,000.  
"\$1,200,000 of bonds selling at \$99 1/2; value, \$1,195,600.  
"Total cash value of stock and bonds of the Oakland Transit Consolidated Company:

Stock \$4,140,000  
Bonds 4,576,500  
Total \$8,716,500

"Wherefore, this affiant prays that the assessment of the said Oakland Transit Consolidated Company be raised to conform to its actual cash value as the law directs, as herein shown.

"Affiant further alleges that the homesteads of the poor people of Oakland and Alameda county, and the property of business men as well, are assessed for the full amount of the mortgages on the same and considerable sums over, while the property of the Oakland Transit Consolidated Company, a wealthy and powerful monopoly, is assessed for less than half the sum for which it is mortgaged, notwithstanding that its bonds sell above par and its stock commands a large price, while its net earnings pay a high rate of interest on several millions of dollars in addition.

"Affiant alleges that this is contrary to

the statutes of the principles of justice and to public policy, and is a wrong, particularly to the wage-earners and people of moderate means.

"Wherefore, he prays that your honorable Board do justice in the matter and to raise the assessment of the corporation aforesaid to a conformity with the assessments of other property.

"R. WIAND.  
"No. 678 Twenty-third street.  
"Subscribed and sworn to before me this first day of August, 1903.

"HERBERT D. WISE,  
"Notary Public in and for Alameda county."

## FIERCELY ROB MILLIONAIRE.

SEATTLE, Wash., August 3.—Thomas S. Lipsey, the Klondike millionaire, was confronted by two masked burglars in his home on returning from church last night. He was beaten over the head with a revolver, bound, gagged and tied to a post in his stairway. A servant girl, previously surprised by the burglars and tied to the stairway, witnessed the attack on her employer. Lipsey was robbed of two gold watches and fourteen dollars all the money on his person. His wounds are considered quite serious.

## SOUL FOUND REST AFTER PAYING BILL.

NEW YORK, August 3.—The heirs of E. B. Gonzalez, who about thirty years ago conducted a large grocery business in East Orange, N. J., have received a check for \$100,000 from a creditor, which was the result of a lawsuit since she ran up the bill for groceries twenty-seven years ago and left town without paying for it.

The woman's lawyer asserts that after paying the debt the woman retired and slept until next morning at 10 o'clock.

## MOTORMAN WANTS DIVORCE.

Suit for divorce was instituted today by Walter A. Edwards, a motorman on the San Pedro avenue cars, against Maude V. Edwards, whom he alleges deserted him two years ago.

## BEAUTIFUL ROYAL TREASURE FOUND IN MUSEUM AT THE "H. J. B."

BOSTON, August 3.—One of the mysteries connected with the Forbidden City of Peking has come to light here with the strange appearance in the Boston Art Museum of what is said to be the famous sacred jeweled tree belonging to the Imperial family of China.

For more than two centuries this treasure, made of native Chinese precious stones, standing two and a half feet high and radiating a brilliant mass of colors, had been closely guarded day and night, few persons knowing of its existence or where it was kept. Its disappearance several years ago before the Boxer outbreak, caused a furore among Chinese officials.

The tree is said to have arrived at the museum through unknown channels and an effort has been made to restore it to the Chinese Government.

## BEAUTIFUL ITALIAN BABY KIDNAPED.

NEW YORK, August 3.—Although spurred in their efforts by offers of a large reward the police have not been able to find the slightest trace of the beautiful baby daughter of Giampa La Luma, an Italian fruit dealer residing in West Forty-sixth street. The child, who is two and one-half years old, disappeared twelve days ago. At first it was thought she had embarked out of her cart on the sidewalk, where her mother had left her a few minutes, but a thorough search leads to the belief that the little one was kidnaped.

From neighbors' doctives have learned that a private carriage in which rode a richly dressed woman, was seen about the place before the baby disappeared. It is seldom that a private conveyance is seen in that particular locality and its appearance excited considerable notice. The searches are now fully continued the woman was a kidnaper. No motive for stealing the child has yet been found, however.

## MURDERER'S ELECTROCUTED.

OSSENING, N. Y., August 3.—Antone Taurchawski, a felon, was put to death today in the electric chair at Sing Sing Prison. He declared on his way to the chair that he was innocent of the murder of John Shepolski, a Brooklyn saloonkeeper, which occurred March 6 and of which he had been convicted. Taurchawski was sentenced June 11 and the time elapsing between the pronouncing of sentence and its execution is said to have been the shortest of the State records.

## SCORES A SUCCESS IN LONDON.

MADAME JANE HARDING.

Madame Jane Harding has scored a success at the Coronet Theater in London. She has won the praise of the critics and the people. She has good looks as well as talent.

## NEWSBOYS' STRIKE IN SAN FRANCISCO.

Leader Says the Boys Are Right and Counsels Them to Keep Up the Fight.

(From Leader, S. F., August 1, 1903.)  
The newsboys' strike is still on. It has been the most orderly and the most thorough strike on record. Though the evening papers, following the example of the lamented Employers' Association, called on the police and placed them on their wagons, still the boys have kept the peace. They have not killed, nor even assaulted a policeman; they have not wrecked a wagon; they have been guilty of no outrage against person or property. And so loyal are they to their organization that not one of them has turned traitor.

As the papers form a trust the newsboys have no means of publishing their side of the question and eliciting public sympathy. The strike was caused by the arbitrary action of the papers in raising their prices on the newsboys. The papers announced that the cost of material had gone up, and hence they were "reluctantly" compelled to increase their price. This increase came directly out of the pockets of the newsboys. The price of the paper on the street remained the same—5 cents. The newsboy had no alternative left but to strike or starve.

The action of the papers is illogical and unjust towards the newsboy. In full times, when rents and cost of living were low, he invested 8 cents for three copies of hard work, he disposed of twenty copies of an afternoon he made 66 2/3 cents profit. But he took chances. He could not return papers unsold, which were a dead loss to him. Now, however, when times are more prosperous and his expenses greater, the newsboy is

only able to clear 50 cents on twenty copies. He is to suffer because of "good times." The papers' coveted the 10 per cent difference, and like to pilfer it. Every body except the poor newsboy is to profit by prosperity. He alone must suffer.

And the claim of the newspapers that because the cost of white paper has increased they must accordingly increase their prices is an abuse and hypocrisy. The Eastern paper consumes just as much, and more, white paper and they sell on the streets for 1 cent. If white paper has gone up so have advertising rates and the amount of advertising. This is the principal source of income of a daily paper. The papers are continually increasing their prices in this line. They point with pride to their earnings, and compare them with the same week of month last year. The papers prosper in prosperous times and their income increases anywhere from 50 to 100 per cent.

The poor newsboy, on the other hand, must surrender a "larger portion" of his hard earnings to the newsman. The price of white paper has gone up. The newsboys should, under no consideration, surrender. The papers imagine that they can starve them out; that when the pinch of hunger is felt the boys will come to terms. But it is the boys who can bring the papers to terms. The papers cannot stand the heavy loss of street sales, and besides, merchants will soon stop advertising if no papers are sold. Thus the newsboy's revenue will be closed and the papers will not continue publishing for pleasure or exercise.

## ISABELLA MAGUIRE IS INCORRIGIBLE.

Isabella Maguire is the first of the youthful prisoners coming under the control of the courts as an incorrigible to be housed in the Receiving Hospital building. Being but eleven years of age it was not considered proper to place her to be confined in the jail where the older women are and she was taken last night and given a bed in one of the rooms in the insane ward.

Under the recent act of the last legislature it becomes incumbent on each county to provide for the care of incorrigibles. The Board of Supervisors in looking over the ground to see what might be done to keep the youthful offenders separate from those confined in the County Jail, hit upon the plan of having them confined in the insane ward of the Receiving Hospital until such time as it was determined how much they would be required to look after and what the demands of the times required.

Isabella is charged by her mother with doing everything but what a girl of her age is supposed to do. She runs away from home and is fast developing the latch key habit. She is also accused of having stolen money from her mother's trunk on several occasions.

and has been expelled from two different schools she has attended. For her youth the record she was making was considered too promising for a criminal and her mother finally concluded to bring her case to the attention of the courts.

## TOLSTOI POINTS TO GOOD AND TRUE.

NEW YORK, August 3.—Count Tolstoi is contributing to a review article, which contains a pessimistic survey of the inevitable progressive liberty under all forms of Government, says a Times dispatch from Paris, by way of London.

Count Tolstoi says the recognition of the right of enforcing obedience to law is a feature of automatic systems as well as of revolutionary and socialist ideas. Modern technical improvements have strengthened modern government, hence the only effective means of securing true liberty is the adoption of a religious conception of life.

The Russian autocrat seems to regard the Donkovichs as models of the higher morality, and concludes that the sole means of benefiting humanity is for the individual to give an example of good life.

## HEAVY RAINS FLOOD CITY.

TOPEKA, Kas., August 3.—Four inches of rainfall between 7 and 8 o'clock Sunday morning, flooded this city and North Topeka, doing hundreds of thousands of dollars damage in washed-out pavements and flooded cellars. North Topeka suffered the worst. The water, owing to blocked up alleys and yet unclogged streets of the May flood, poured down Kansas avenue like a mill race three feet deep, doing damage to the goods in the stores.

Many citizens who had been in the former flood, tore up carpets, packed up a few belongings and fled across the river in any conveyance they could secure. Accompanying the rain was a severe electrical storm, the lightning striking several homes but injuring no one fatally. The city street car lines had several culvert bridges washed away, delaying traffic during Sunday. The Union Pacific also suffered from washed-out tracks.

For Over Fifty Years  
Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, kills all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents.

If sick headache is misery, what are Carter's Little Liver Pills? If they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

Annual meeting of the stockholders of Oakland Electric Company (Inc.) will be held at the office of the company, 522 and 524 "Eleventh" street, Tuesday, August 11, 1903, at 7:30 p. m. Per order J. W. COX, Secretary.
